A NEGRO DESPERADO

ALEXANDER SIMMS ADDS FOUR MORE VICTIMS TO HIS LIST.

Captured in Jacksonville, Fla., After a Bloody Fight, and Hurried Away to Avoid a Lynching.

JACKSONVILLE, Fla., April 7 .- Alexander Sims, alias "Brit Glenn," alias "Kid Charlie," a negro, added another victim to his list of killed this morning besides wounding three others. Simms shot and killed a young colored boy named Napoleon Stucks, Saturday night. The officers got on his trail this morning and chased him about two miles to a barn in the eastern part of the city. When Simms saw he was discovered he opened fire on the officers. They returned the fire, but as the negro could shoot without exposing his body they were unable to hit him. During the firing policeman Minor was shot in the breast and killed almost instantly. Lieutenant Minor, his brother, was shot in the left leg. Two negroes who had joined in chasing Simms were shot in the hip, one, it is thought, fatally. Simms fired seventeen shots and offered to give himself up if the lieutenant would consent not to kill if the lieutenant would consent not to kill him. This was agreed to and he gave up his revolver and came down. A crowd gathered on the outside and wanted to lynch him at once, but the officer hustled his prisoner off to jail. As soon as the affair became noised about a large crowd congregated at the jail and threats of lynching were frequent. Finally it was announced that Simms would be taken to the county jail for safe keeping, but instead the sheriff put him aboard a train for St. Augustine, where he was placed in jail. Had he remained in this city nothing would have saved him from lynching except State troops.

DOUBLE TRAGEDY AT CHURCH. Walter Scott Shoots His Young Wife

and Commits Suicide. WICHITA, Kan., April 7.-A horrible tragedy occurred on the steps of the Lincoln-street Christian Church as the congregation was walking out of the church after services were over about noon to-day. On the sidewalk in front of the church Walter Scott fired a bullet into the brain of his wife and she fell at his feet a corpse. While the people stood aghast at the terrible deed, Scott placed the muzzle of the revolver in his mouth and sent a bullet crashing through the roof of his mouth into his brains. He fell dead almost on top of the remains of his wife. At the sight of the bloody tragedy two or three women fainted and much excite-ment prevailed. Both bodies were taken to an undertaker's. When Mrs. Scott was shot she was walking out of the church shot she was walking out of the church with her brother.

Mr. and Mrs. Scott were married about two years ago. She was seventeen and he nineteen. They separated about a year ago, she going to her father's house and he going to Kansas City. Scott returned to Wichita a week ago. He went to church to-day and as he walked out, asked his wife if she would return to him. She refused and he shot her before anyone could realize his purpose.

Mrs. George Windish Murdered. Mrs. George Windish Murdered.

PITTSTON, Pa., April 7.—The village of Hamtown, near this city, is excited over what appears to be a sensational wife murder. Mrs. George Windish, about fifty years old, was found dead to-day, in a clothes closet in the second story of her home. There were wounds on the fide of the head and the skull had been fractured. Near the body was found a bloody chisel, and on the floor of the room lay several pieces of clothing saturated with blood. These were identified as having belonged to the woman's husband, who is missing. It is supposed that the murder occurred last Thursday night, as the couple had not been seen since that time. Their three

children remained in the house, but could give no satisfactory answers as to the whereabouts of their parents.

28,000 CASES OF TIN.

Cargo of the Overdue Cupica That

ASTORIA, Ore., April 7 .- The long overdue British ship Cupica, with tin, from Liverpool, for Astoria, arrived at 1 o'clock this afternoon. The docks were lined with people and no sooner had the Cupica dropped anchor than a score of Captain Casson's friends climbed over the side of the vessel and congratulated him on his safe arrival, Captain Casson states that the vessel was delayed by storms that drove her out of her course and by calms which lasted for days at a time. In the vicinity of Cape Horn days at a time. In the vicinity of Cape Horn five hundred cases of tin were jettisoned and more would have followed had they not been compelled to batten down the hatches. Two sailors were injured by being thrown against the bulwarks during a storm. Captain Casson says that when only a few days out from Liverpool he feared he would never reach his destination.

The arrival of the Cupica has placed the canneries at some inconvenience as they, with one or two exceptions, had given up the ship for lost and had duplicated their orders with American tin plate. The Cupica has 28,000 cases of tin on board.

ATTACK ON GIBBONS

THE CARDINAL CHARGED WITH EN-COURAGING VIOLENCE.

Vigorous Language of Rev. McCrory, the Pittsburg Reformer-Milwaukee Preachers in the Slums.

PITTSBURG, April 7 .- Rev. T. J. Mc-Crory, pastor of the Third U. P. Church, to-night delivered a scathing attack on Cardinal Gibbons and his supposed justification of the mob in Savannah. Mr. Mc-Crory is a man of extreme views, and is a supporter of the blue laws. He was president of the Law and Order Society, and directed the war here against Sunday papers. He quoted from the remarks of Cardinal Gibbons on the work of the mob and

"The Cardinal protests earnestly against his church being held responsible for the Spanish inquisition, yet we submit whether it was more out of harmony with the sentiment of the sixteenth century than the conduct of the mob with the closing years of the nineteenth.

"He excuses and encourages violence. When the head of the church speaks on an offense so serious as the riot at Savannah anything short of the sternest, most unequivocal condemnation of it will be encouragement. He puts Christiantiy to shame before the world. He claims to represent the largest body of Christians in the world, and yet has only soft words for men who would have murdered if they had not world, and yet has only soft words for men who would have murdered if they had not been restrained by bayonets.

"The Cardinal does not represent Christianity. He is speaking for a system that cannot bear the light, and he would encourage the suppression of truth, though that require the silencing forever of the clearest voices that have ever rung out in this Western world."

Ministers in Milwaukee Slums. MILWAUKEE, Wis., April 7 .- The Rev. Walter J. Patton, of Asbury, M. E. Church, and another preacher whose name is not positively known, spent nearly the whole of last night in a tour of the Milwaukee "tenderloin" district. They were accompanied by a well-known man about town and they saw things, Mr. Palaon says, that eclipsed for moral depravity anything he has ever seen and he has made investigations of the same kind in Chicago and New York. They also visited the gambling house with they were taken for "hot sports," and invited to try their luck on the turn of card or wheel. Mr. Patton intimated that the evidence he secured will be used in a campaign against vice that has been manned. out by well-known people.

Bishop Newman in the Pulpit. KINGSTON, N. Y., April 7 .- The sermon

of Bishop Newman was delivered before the New York Methodist Conference at the St. James Church here this morning. Chaplain McCabe presided over the love feast. Bishop Newman discoursed on these words: "He that ruleth his spirit is better than he who taketh a city." The ordination of deacons and elders was solemnized this afternoon at the Wierts-street Methodist ernoon at the Wierts-street Methodist Church, where memorial services in honor of deceased members of the conference in the past year took place. The missionary anniversary this evening was addressed by Chaplain McCabe and Rev. J. W. A. Dodge and J. S. Stone. Most of the pulpits in this city were occupied by Methodist preachers, who spoke to large audiences.

Latter Day Saints. KANSAS CITY, Mo., April 7 .- The elders and delegates who are attending the conference of the reorganized Church of Jesus Christ of Latter Day Saints, at Independence, spent to-day attending the different services arranged for the Sabbath. The annual sermon was delivered by the venera-ble head of the church, Joseph Smith, and the sacrament was administered. The serv-ices of the conference will continue dur-ing the week. Each morning there will be religious services and each afternoon busi-ness sessions, and preaching at night,

Greek Independence Celebrated. NEW YORK, April 7.-The anniversary of the Greek declaration of independence was celebrated in an informal manner at noon to-day in the Greek Orthodox Church. There was no sermon nor any special feature. The congregation simply offered up a silent prayer for the preservation of Grecian liberty. The pastor, Rev. Agathodoros A. Papageorgopulos, officiated.

MRS. WHITEWAY'S DEATH.

Her Baby.

CLEVELAND, April 7 .- Mrs. Elizabeth Whiteway, aged thirty, died last night at her home, corner of Lorain and Root streets, of nervous prostration, caused by fright, and her mother, Mrs. William Herr, of 1599 Wilson avenue, is lying at death's door from injuries received at the time her daughter was frightened. Two weeks ago, as Mrs. Herr was descending a flight ago, as Mrs. Herr was descending a flight of stairs with Mrs. Whiteway's infant in her arms, and carrying a lamp, she fell. The lamp exploded and set fire to the child's clothing. Mrs. Whiteway extinguished the flames and saved the baby's life. Immediately she was taken ill, and never left her bed, dying, as the physicians say, from the effects of the shock. Mrs. Herr was badly hurt by the fail, and her death is expected at any time. death is expected at any time. SANTA ANNA'S DAGGER.

Son of Famous Sam Houston Sends It to Mayor Caldwell.

CINCINNATI, O., April 7 .- Hon. John A. Caldwell, Mayor of this city, has received by express from A. J. Houston, of Texas, the son of the late celebrated General Sam Houston, the cagger which was taken from General Santa Anna when he was captured by Gen. Sam Houston at the battle of San Jacinto on April 21, 1836. This gift is to be presented to some museum in Cincinnati. It is sent in recognition of the fact that the two cannon of the Texan army, called "the Two Sisters," which were chiefly instrumental in winning the battle of San Jacinto, were the gift of citizens of Cincinnati who were led by the late George Graham of this city.

Old Kirland Block Burned. NORTHAMPTON, Mass., April 7.—A fire broke out, at 10:45 o'clock this evening, in the old wooden Kirland Block. The fire started in a room occupied by John Rackum, on the second floor. There is a strong probability that Rackum was burned to death. Wilbur F. Knowiton, who roomed on the floor above, narrowly escaped with his life. Loss on building, \$30,000; insurance, \$8,000. Loss on contents, \$8,000; partially insured.

United States Consular Agent Advises Consumptives to Go to Africa-Other Washington News.

WASHINGTON, April 7.-When the report of a speech made in a Methodist conference at Salem, Mass., by Rev. Lansing, and his subsequent published interview, accusing President Cleveland of intemperance was shown to Mr. Cleveland this evening, he said, with considerable warmth: "This is simply an outrage, though it is not the first time a thing of this kind has been attempted. I cannot avoid a feeling of indignation that any man who makes claims to decency and especially one who assumes the role of a Christian minister, should permit himself to become a disseminator of wholesale lies and calumnies not less stupid than they are cruel and

THE SMALLPOX RECORD.

Indiana Most Fortunate-Hot Springs Infected-Cholera Dying Out.

pecial to the Indianapolis Journal. WASHINGTON, April 7 .- According to the official bulletin issued to-day by the supervising surgeon-general of the Marine Hospital Service, there have been nine smallpox cases reported in Indiana during the period from Jan. 1 to April 2, of the current year. They were distributed as follows: Michigan City, New Carlisle and Franklin two each; Roby, LaPorte and Whiting, one each. Only one case, at Michigan City, resulted fatally. This is an excellent showing as compared with the adjoining State of Illinois, where in Chi-

than one-third of which cu ratally. Dr. L. P. Gibson, acting assistant surgeon at Little Rock, Ark., reports that it is most difficult to obtain trustworthy reports from Hot Springs in regard to smallpox there. He says: "It takes several days to ascertain the facts from week to week. From a private but reliable source I quote the following: The Board of Health has reported nothing for the past week. There are thirty-eight to my knowledge and I have reason to think there are forty-two. They report nine in the city, and I saw

twenty-seven."

The report of the surgeon-general for this week shows that cholera is decreasing in Austria-Hungary, and that it has entirely disappeared from Galicia and Prusslan Silesia. Dr. Cleary, United States sanitary inspector at Rio Janeiro, reports a general decrease of cholera in Brazil, except in the State of Espirito Santo, where there has been a marked increase, ninety cases occurring in one week in two villages alone. It appears, he says, to be following the course of Parahyba river, and to be slowly moving northward from that stream. Dr. Cleary thinks it is safe to say that there will be no epidemic of yellow fever in will be no epidemic of yellow fever in Rio this year, as the cool season is very Rio this year, as the cool season is very near, and he says that whenever in previous years there has been no great number of cases of this disease up to this time, it never appears to any great extent. J. A. Wright, of the International Navigation Company, advises Dr. Wyman that the America line for both the New York-Southampton and Philadelphia-Liverpool service has made arrangements to have all of its passengers coming from Russia admitted to the stations at Illowe, Ottlotschin, Prostken, Eydtkuhnen, and Bajohren, in order that they may pass the same rigorous examination, and at the same time have their bagtion, and at the same time have their bag-gage property disinfected, which it is be-lieved will prevent the importation of any infectious diseases by this line.

RESORT FOR CONSUMPTIVES.

Consular Agent Landgraf Starts a Boom for the Orange Free State. WASHINGTON, April 7 .- A new resort for consumptives has been discovered in the Orange Free State, South Africa. United States Consular Agent Landgraf in a report to the State Department tells of the beneficial result experienced by persons who have tried it, and adds: "No country on earth can rank with the Orange Free State as a health resort. Mr. Patterson had been all over the world and nowhere else found any relief. I could give numbers of similar cases, and that so few people have come here is due to the fact that the Orange Free State is so little known and in most parts of the world be-

known and in most parts of the world believed to be a desert, inhabited by brutal
natives and wild beasts.

"The country is pretty well populated
and cultivated. Living is rather expensive
and persons coming here should command
from \$50 to \$60 per month. A family conslsting of four or five persons can live
decently on \$1,500 per year. Persons whose
lungs are far gone should travel by stages
from the sea to the Orange Free State—
that is, such persons should stay for a
month at Cerea, next at Beaufort West,
etc., until they are prepared to stand the
dry climate of the Orange Free State. A
direct journey to Bloemfontein would mean
death to such persons. The landing place
is Capetown." is Capetown.

FRENCH WINE MAKERS. They Are Alarmed at the Strong Com-

petition of California Goods. WASHINGTON, April 7 .- The French wine makers are becoming alarmed at the American competition. In an extract from the Commercial Journal, published in Paris, after describing the year's vintage in California as inferior in quality and indifferent in yield, it is said, since the new tariff lowering the entry duties on wines imported into the United States from abroad, great efforts have been made in California to organize powerful syndicates whose duty organize powerful syndicates whose duty is to struggle by every possible means against foreign competition, especially against the competition of French wines. It is not that the quantity of disposable wines or pecuniary means are wanting, but owing to the antagonism arising among the producers on one side and the agents on the other, this enormous engine of industrial war does hot seem ready to operate for a good while yet. In looking over the last annual report of the State Viticultural Board of California, for the year 1832-94, the conclusion is arrived at that the wine growing industry of California has been for several years in a state of stagnation, that there has been an excess of production, that the price of wine has never been lower, although the

CRISIS IN SUGAR TRADE.

Englishmen Advise that the Bounty System Be Abolished. WASHINGTON, April 7.-Sir Julian Pauncefote, the British embassador, has furnished to the Department of State a

copy of a circular issued by the West India committee of London concerning sugar production. The embassador explains that it is not to be regarded as an expression of opinion by his government of the committee's views. The circular calls attention to
the fact that the sugar industry, beet as
well as cane, is passing through a crisis
of the most serious description and expresses the hope that in attempting to
provide a remedy, the various governments
should avoid taking any steps which may
aggravate the crisis instead of relieving it.
It is shown that while the production is
increasing at the rate of a million tons
per annum, the consumption grows slowly
at the rate of only 250,000 tons per annum.
Naturally prices are depressed and the
bounty system is ascribed as the cause of
this state of affairs. Therefore it advises
the entire abolition of the bounty and the
stimulation of consumption by the reduction
of the duties levied on sugar, which are
excessive in Europe and prevent the people
as a whole from using sugar. opinion by his government of the commit-

How Nicaragua Can Block England. WASHINGTON, April 7.-Senator Morgan thinks the purpose of the English government in sending a battle ship to the Nicaraguan coast is to enforce the demand which will probably soon be made for indemnification on account of the expulsion of Consul Hatch, and that if it be re-fused, the Royal Arthur will take the matter into hand and secure the indemnifimatter into hand and secure the indemnification by collecting the customs duties on Nicaraguan importations. In that event, he thinks, Nicaragua's wisest course would be to convene her congress and pass a law for the admission of all importations free of duty. In conclusion he said: "The other nations would never consent that their exporters to Venezuela should pay duty to England in the absence of a tariff in Nicaragua, and England's policy would be effectively blocked.

WASHINGTON, April 7 .- A very slight mprovement was reported to-night in the condition of Charles Lansur, Assistant Controller of the Treasury, who is lying very ill at the National Hotel. Saturday night his condition was such that it was hardly thought he would survive the night, but to-day he showed indications of a slight im-

CHANG IS RECOVERED

HIS SON, LIU CHING FUNG, APPOINT. ED A PEACE ENVOY TO ASSIST.

Terms Under Which Japan Will Form tle on Swat River.

SHIMONOSEKI, Japan, April 7 .- The wound in the face of Li Hung Chang, the Chinese peace envoy, who was shot, March 24, by a patriot fanatic, has now completely healed. The bandages were removed today. Prince Komatsu, commander- in-chief of the Japanese army and navy, will leave Hiroshima, Wednesday next, to establish his headquarters in China.

plenipotentiary to assist Li Hung Chang. Japan has formally accepted him as an envoy. Liu Ching Fung is a son of Li Hung A cablegram from Paris says: It is stated

It is officially stated that Liu Ching

Fung has been appointed a Chinese peace

posed the following conditions for the conclusion of peace: The independence of Corea.

The cession of southern Manchuria, in luding Port Arthur. The cession of the island of Formosa. The opening of Chinese ports and rivers The payment of an indemnity of 400,000,000

The occupation of a number of strategic points until the indemnity shall have been paid.
The London Times, in an editorial on the latest report of Japan's demands, says it considers that Japan is justified in imposing these conditions and adds that the British cannot object to the occupation of the Liao Tung peninsula. The Daily News says it thinks that the proposals are likely to meet with the general approval of the European powers.

JABEZ BALFOUR'S CASE. The English Swindler Penniless and on His Way to Be Tried.

BUENOS AYRES, April 7 .- Jabez Spencer Balfour, whose extradition to England was granted a few days ago, sailed hence this morning on the steamer Tartar Prince. Despite the fact that it was generally bemoney out of the building societies, in which he was interested, he is said to have left Buenos Ayres in a penniless condition. Miss Freeman, who was his companion in this country, will follow him to-morrow. sailing on the steamer Maoria. Ever since it was learned that Balfour had fled to Argentina after the collapse of the Librator Building Society and allied concerns, the British government made efforts to secure his extradition. The charge on which his extradition was sought was that which his extrantion was so gift was the fraudulently obtained £20,000 from the House and Land Investment Trust. He frequently denied that he had any connection with the Librator society, claiming that he had resigned from the directorate that he had resigned from the directorate that he had resigned from the directorate about ten years ago. Prior to his flight from England Balfour was a member of the House of Commons in the Liberal intrest and was a prominent church member. The failure of the building societies caused widespread suffering, hundreds of neonle having invested every penny than people having invested every penny they had in the world in them. When the crash came they were ruined and public subscriptions were taken for their relief. Several of those charged with being responsible for the collapse are now on trial

Battle with Umra Khan Expected. SIMLA, April 7.-The first brigade of the British force, moving to the relief of Mr. Robertson, the British agent at Chitral, has had an engagement with five thousand Swats, who were trying to block the Malakand pass. The enemy was put to flight after losing thirty killed by a charge of cavalry. The brigade is now at Khar, in Swat, where it is awaiting the organization of a transport service. A considerable number of fanatics from upper Swat have joined Umra Khan of Jandol, who is leading the forces against the British and a ing the forces against the British, and a big fight is expected to-morrow. Wilde Pacing His Cell.

LONDON, April 7 .- Oscar Wilde is suffering from insomnia. The prison surgeon on Saturday night gave him a sleeping draught, but it had no effect, and he continued pacing his cell nearly all night long. He cats almost nothing, although he is allowed to have food sent to him from outside. Another prisoner cleans his ceil. Wilde is not allowed to smoke, and is al-

lowed to receive only a single visitor daily. Dispatch from the Kaiser. HAMBURG, April 7.-Emperor William has sent the following telegram to Captain Barends, of the Hamburg-American line steamer Normannia which, on her last trip to this port, rescued the crew of the British ship Arno: "I express to you my fullest appreciation of the rescue of the crew of the Arno, so happily accomplished by you under arduous circumstances."

Of Course Turks Say So. PARIS, April 7 .- Officials of the Turkish mbassy here say with reference to the dispatch of American war ships to Alexandretta and Adana, Syria, that there is no truth whatever in the report that a mas-sacre of Christians is impending. They de-clare, on the contrary, that perfect order prevails in Syria

Cable Notes. The Duke of Aosta, who will shortly marry Princess Helene of Orleans, has arrived in London.

Calcutta says that sixteen men were killed by an explosion in the Kolar gold mines in Bangalores.

Sir Philip H. Currie, the British embas-sadore at Constantinople, has had two long conferences with the Sultan recently on Armenian affairs.

It is again announced that Lord William Beresford will marry the widowed Duchess of Mariborough, formerly Jane Lillian Warren, daughter of the late Commodore Price, of the American navy, and widow of Louis Hammersly, of New York.

END OF YOUNG HILLMAN.

Found in Detroit with a Bullet Hole in His Breast.

DETROIT, Mich., April 7 .- The dead body of a well-dressed young man with a bullet hole through the heart-was found on Concord avenue this afternoon. The man arrived last Wednesday, stopping at the Cadillac. A note in his pocket signed W. F. Hillman, told that he was traveling auditor of the Buckeye Supply Company, and was son of the president of the company. In a note to his father the young man wrote that his life was a failure, that he could not resist liquor. It was learned that he brought with him to this city a young woman whom he placed in the house of the Good Shepherd. Her name is Minnie Corey. She is from Cleveland and is about seventeen years old. When seen she admitted she came here with Hillman and said they were to be married. The dead man is from Toledo, O. Hillman, told that he was traveling audi-

DEBS IS ENCOURAGED

BEEN TO THE COAST REORGANIZING THE CRIPPLED A. R. U.

Took in as High as 2,200 Members in Seven Days-Laboringmen in the West for Free Silver.

TERRE HAUTE, Ind., April 7 .- President

Special to the Indianapolis Journal.

Debs, of the American Railway Union, returned from the Pacific coast yesterday after making a speech-making trip which began at the Auditorium in Chicago, Feb. 28, and continued with not less than two speeches a day through the Northwest and along the Great Northern and Northern Pacific to Oregon and thence to Washington and California, closing at Los Angeles a week ago to-night. He says the union has been reorganized throughout this territory and that the work inaugurated by him is being carried on by Directors Goodwin, Hogan and Keliher, the first named on the Canadian Pacific, the second on the Southern Pacific and the third on the eastern terminals of the Northwest systems. In seven days on the way westward trip Debs was along the Great Northern. At some places every man in the employ of the ocmpany joined the order. In California and especially at San Francisco, where the members of the union had the worst experience of any locality in the country during the strike last year, and where the local unions were abandoned, he found men enthusiastic for reorganization and many others ready

to come in.

The men on the Southern Pacific are much displeased with the old brotherhoods because they were not able to prevent the recent heavy reduction in wages. The trainmen who belong to the brotherhoods and who refused to join in the strike fast year say they were then given assurance that there would be no reduction of wages for men who were loval to the company but men who were loyal to the company, but that now the company shows no considera-tion for the brotherhood men. When Chief Arthur was on the coast recently he could barely was a hearing from the company, and the brotherhood men feet aggrieved at him because it was largely on his statements that they were loyal to the company rather than to their fellow-employes last

year.
Speaking of the political situation in the far West Debs says the railroad labor vote is no different from that of all other classes; that there is a demand for free silver and that the party which next year gives the best promise of securing the free coinage of silver will get the votes of all the people in that section. On the coast there is the added demand for the Nicaragua canal, and railroad men as well as others believe it would revive the prostrated industries of the northern Pacific section where the natural resources cannot be utilized because the lumber and other products cannot be shipped to the East by rail.

Silk Mills Strike Ended.

NORTHAMPTON, Mass., April 7 .- The strike at the Belding silk mills, in which 340 operatives participated, has been declared off, and they will return to work to-morrow morning, accepting the company's offered increase of 5 per cent. on their former wages. The strikers asked for a raise of 10 per cent.

PROVIDENCE, R. I., April 7.—Several labor meetings were held in this city to-day, most of them behind closed doors. The operatives of the Atlantic mills, however, decided to strike, by a vote of 153 to 17, the strike to begin Wednesday morning. Last Friday the Atlantic operatives demanded a return to the old schedule of wages. The demand was peremptorily refused, and to-night's action was the result. wages. JONES SQUIRTED TOBACCO JUICE IN GOVERNOR CLARKE'S FACE.

The Governor Returned the Compliment, and Thus Two Southern Gentlemen Were Quits.

AFFAIR AS JONES TELLS IT

SAYS THE GOVERNOR WAS THE FIRST TO DO THE SPITTING.

From Whatever Point of View, the Speciacle Was Bad Even in the Wilds of Arkansas.

LITTLE ROCK, Ark., April 7 .- The spectacle of an honorable member of the Arkaneas Legislature, livid with rage, spitting in the face of the Governor of this commonwealth, quickly returned by a viclent emission of executive saliva, showered on the angered features of the lawmaker and a flourish of firearms in the hands of the Governor, was witnessed in the lobby of Gleason's Hotel here, this afternoon. It was the result of the sensational charges of bribery in connection with the railroad commission bill sprang in the House of Representatives yesterday by Mr. Yancey.

of Phillips county. Mr. Jones, of Marion county, one of the principals in the altercation of this afternoon, rose, yesterday, to a point of personal privilege and denounced Governor Clarke as being at the bottom of the charges. He said that Governor Clarke was a "demagogue and going around like the assassin in the night with a knife, stabbing in the

back men who were his peers." This afternoon Governor Clarke met Jones in the lobby at Gleason's and requested a private interview with him. Jones replied that he would accompany the Governor nowhere, and that if the chief executive had anything to say to him he must make it known there. Hot words followed and, in a fit of anger, Jones spat in the Governor's face. Governor Clarke, trembling with anger, returned the insult. and, as quick as a flash, drew his revolver. The difficulty might have resulted in bloodshed but for the quick action of bystanders ernor was later arrested by a constable and released on his own recognizance. He will, he says, plead guilty to the charge of as-sault to-morrow morning. Further trouble

may ensue.

In a statement of the occurrence given out to-night Representative Jones says: "I had just left the dining room from dinner at Gleason's Hotel and took a seat in the office on the east side, facing the east wall, quietly smoking a cigar and not expecting any trouble whatever. Suddenly I heard the front door open abruptly, and on looking around I saw Governor Clarke enter the office. I saw from his countenance that he meant trouble. I vacated my chair about the time he reached me. The Governor, in a very abrupt manner said:

"'Come back here with me,' at the same time motioning toward the rear. I was totally unarmed, and felt that he intended to kill me. I said: 'No, I will not do it. If you have anything to say to me you can say it here.'

mand to go to the rear of the office, at the same time pulling me a step or two. I then stopped and again declined his invitation in language exactly as repeated above. He then deliberately spit in my face. I returned the litsuit by spitling in his face. When I did this he turned loose of my arm and made for his pistol. I then saw that my only chance was to knock him down, and struck with all my might at his face with my left hand. He sprang back towards the door and my blow failed to reach him. He was going for his pistol. I sprang and grappied him and caught him around his waist, pressing both his arms to his side, but leaving his arms free to act from the elbow down. By this time he had his pistol drawn. Just then Representative Roberts sprang in and grabbed the weapon, and immediately Representative Pope also got hold of the pistol. He struggled to free the gun, while the Governor said:

ernor said:
"Turn that pistol loose."
"Roberts declined, when the Governor said: '—you, Roberts; turn that pistol "About this time some one grabbed me around the waist. I requested that the pistol be taken from Clarke and then release him. Roberts and Pope declined. I then said: 'Give me a pistol and turn him loose with his weapon.'

with his weapon."
"When the Governor saw that he was overpowered he requested Pope to turn the pistol loose, and said: I will not kill him; I promise you positively that I will not "Senator Ward then requested me to release my hold on the Governor, and asked that I go to my room, saying that he would take care of Governor Clarke. Finally I did go to my room, and remained there ten seconds and returned to the office, but

ten seconds and returned to the omice, but the Governor was gone."
Governor Clarke said he did not care to discuss the trouble through the press further than to say that he did not go to the hotel with the view of making trouble, but only to tell Mr. Jones that he must desist from lugging his name into controversies existing between members of the House. The trouble which followed was not of his making.

WAIFS FROM TORONTO.

Four Boys Nearly Die in a Box Car Traveling to Chicago.

CHICAGO, April 7.-The spirit of adventure which prompted four boys, ranging away from their homes in Toronto, Canada, and come to this city, nearly resulted in their being starved to death. The boys left their homes last Tuesday night and, secrefing themselves in a box car, arrived in this city early this morning. Worn out with fatigue after their long journey, and having been without food for the last two days of their trip, they presented a sorry spectacle. The boys composing the party were John Riordan, John Tobin, John McManus and Daniel Sheehy. For the past six weeks they had been planning to come to Chicago, and their schemes were laid without the knowledge of their parents or their schoolmates. Just before leaving Toronto the car door was locked and the boys held prisoners until released this morning by railroad detectives. The officers listened to their story and turned them loose one by one, and in this manner they became separated. Late this afternoon young Riordan visited the Harrison-street police station in search of assistance. After telling his story he was given food and shelter. What became of the other boys is not known. ing themselves in a box car, arrived in this
